**EASA Form 1 - Issue 1 / Formulaire 1 de l'AESA - Edition 1**  
**User/Installer Responsibilities**  
 Responsabilités de l'utilisateur / Installateur

- NOTE: 1. It is important to understand that the existence of the document alone does not automatically constitute authority to install the part / component / assembly. Il est important de comprendre que de par son existence, ce document ne constitue pas forcément l'autorisation d'installer la pièce / l'élément / l'ensemble.
2. Where the user/installer works in accordance with the national regulations of an Airworthiness Authority different from the Airworthiness Authority specified in Block 1, it is essential that the user/installer ensures that his/her Airworthiness Authority accepts parts / components / assemblies from the Airworthiness Authority specified in Block 1. Quand l'utilisateur/installateur travaille selon la réglementation nationale d'une autorité de navigabilité différente de l'autorité de navigabilité mentionnée dans la case 1, il est essentiel que l'utilisateur/installateur s'assure que son autorité de navigabilité accepte les pièces / composants/ensembles libérés par l'autorité de navigabilité mentionnée en case 1.
3. Statements 14 and 19 do not constitute installation certification. In all cases, the aircraft maintenance record must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown. Les indications portées dans les cases 14 et 19 ne constituent pas une certification de montage. Dans tous les cas le dossier d'entretien de l'aéronef doit contenir une certification d'installation délivrée conformément aux règlements nationaux par l'utilisateur/installateur avant que l'aéronef ne puisse décoller.
